

GreenPly®

Eco-Friendly Premium Hardwood Plywood

A hardwood plywood panel specifically designed to meet the most stringent environmental demands of our market place today. GreenPly provides superior quality, reliability and value.

VC

Using FSC whole piece inner plys in combination with a special drying process; GreenPly veneer core is the new standard for strength, value and environmental excellence.

CFC

Our combination fiber core offers the best of both worlds. Veneer inner plys allow for superior screw holding capacity, while the MDF cross bands provide superior stability and outstanding finish applications.

- * *CARB II Certified*
- * *FSC Certified*
- * *NAF Available*
- * *Pre-finishing Available*
